Java Full Stack Developer | Spring MVC | JPA | MySQL

Java Full Stack Developer with 6 years of professional experience as a Site Engineer and Project Supervisor, recently transitioned into software development. Skilled in Java, Spring Boot, Spring MVC, Hibernate, MySQL, REST APIs, HTML, CSS, JavaScript, and React. Built full-stack web applications and completed hands-on training and internship experience. Seeking an entry-level Java Developer opportunity.

WORK EXPERIENCE

X-Workz ODC

Bangalore,Karnataka • 05/2025 - Present

Java Developer Intern • Internship

- Developed full-stack Java web applications using **Java, JSP, Servlets, MySQL, and Spring MVC**.
- Built and optimized **REST APIs** to improve data flow and backend performance.
- Resolved bugs and improved system functionality, contributing to overall application stability.
- Collaborated with senior developers to enhance architecture, improve code quality, and implement reusable components.
- Used **Git/GitHub** for version control and participated in team-based code reviews.
- **Technologies:** Java, Spring Boot, Spring MVC, Hibernate/JPA, JSP, Servlets, MySQL, REST APIs, Git, GitHub

K.S.S Construction & Santhosh Builders

Salem,TN • 07/2019 - 05/2025

Site Engineer / Supervisor

- Managed project execution, planning, and coordination with multiple teams and stakeholders.
- Prepared technical reports, documentation, and project status updates.
- Assisted in estimation, billing, and project documentation processes.
- Used AutoCAD and digital tools for planning and data reference.
- Solved on-site technical issues under strict deadlines.
- Ensured quality compliance and followed standard operating procedures.

EDUCATION

Bachelor's of Engineering in Civil Engineering

Paavai College Of Engineering • GPA: 6.57

Namakkal • 08/2014 - 05/2018

PROJECTS

MilkLore

09/2025 - 11/2025

- Built a complete milk management system for admin and suppliers.
- Implemented CRUD operations for payments, milk receive records, supplier info, and notifications.
- Designed responsive JSP pages using Bootstrap and background images.
- Followed Spring Controller → Service → Repository architecture for clean separation of concerns.
